

Iss 1.

WHITE PEOPLE

SOUTHLANDERS

I hope to show you the cause as a result,
to find our society relentlessly oppressive.

I offer a voice of frustration towards the white
people culture and the vicious negligence
endured by the poor and "others".

The oppressed feel that white people, especially
those in the left, approach commitments to
diversity with superficial acts that only seem to
generate white approval. That is to say,
ACTION on the part of white people is
perceivably lacking in integrity.

I'm talking about YOU

WHITES

In Southland, a white person attitude subverts cooperative thinking and marginalizes people that don't fall into the white majority culture.

But being a white person is not about race, it's characteristic of a psychological pathology which extended within but is not limited to thoughts, identity, or behavior of individuals. A sufficient definition of a white person as I mean it would include the elements of a white-centric world view, hollow welfare, and failure to engage critically with institutions and the environment.

The aim has always been to maintain power and control. The consequence of which, result in relentless oppression.

Oppression of all

WHITE PROGRESSIVES

Theodore Kaczynski recognized that those who are most sensitive about "politically incorrect" terminology are not the average black ghetto-dweller, Asian immigrant, abused woman or disabled person, but a minority of activists, many of whom do not even belong to any "oppressed" group but come from privileged strata of society.

I keep this in mind when observing the Southland activist scene. A scene overwhelmingly dominated by white groups since my birth two decades ago. The Southland music and art scene is diverse on its face but remains in the hands of whites for the sake of whites.

White progressives in Southland must engage with the reality of their privilege before they engage with the "issues". Having integrity means living your life according to the values you hold. In a world that is all appearances, you must know that you are under constant evaluation by your peers Southlander.

In the end, it's no secret. Whole Community is what the people of Southland need.

Nature

THE HOMELESS MAN

Understand the hypocrisy of Nature, the white homeless man. He has set up his tent for extended time in an area near FSU campus where no homeless black man would last a day.

White people treat Nature differently because he's white. Frankly, I'm bothered because his continued presences highlights the prejudices in our approach.

He may live in peace where he likes, but he could stand to throw away the trash he accrues in the area he lives. We should hold him to the same standards that we hold our neighbors and ourselves.

2022 NOTE: I look back on this old page and find it misguided. "We could stand to help Nature remove the trash instead of allowing it to accrue where we all live together." I'm sorry, Nature.

FUTURE OF SOUTHLAND

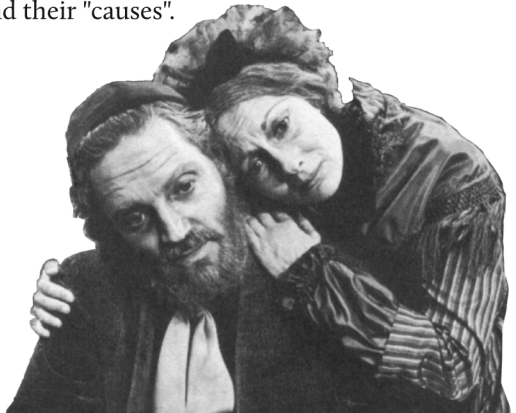

Southland is corrupted by profit and power.

It faces imminent global disaster at the hands of human pollution and discovery.

In truth,

Southland is on the decline, and not likely to receive timely salvation.

While the minority in Southland remain skeptical of white people and their "causes".

Note on Speech

Defending freedom of speech means defending others rights to express themselves, especially when you disagree with their expression.

Freedom of speech is a thoughtless phrase if you only allow the kind of expression that you agree with.
