Community & Peace

This is a community and peace organization. We understand that our ideas may be poorly understood to many. But make no mistake, we are devoted to you and your children.

In the tradition of our radical ecumenical forbearers, we reject bellicose violence, applaud civil militancy (non-violent direct action), and have a vision of a glorious future for Earth and gods children. Believe us, we have seen the promised land.

> The marvelous new militancy which has engulfed the Negro community must not lead us to a distrust of all white people, for many of our white brothers, as evidenced by their presence here today, have come to realize that their destiny is tied up with our destiny.
